Q. The World Patient Safety Day is observed every year on________

A) 14 September  
B) 15 September  
C) 17 September  
D) 16 September
World Patient Safety Day, observed annually on 17 September, aims to raise global awareness about patient safety and call for solidarity and united action by all countries and international partners to reduce patient harm.

WHO urges all stakeholders to “Act now for safe and respectful childbirth!” with the theme “Safe maternal and newborn care”.

The focus of quality-oriented health care is patient safety.

Adverse events that are the unwanted result of treatment endanger patient safety.

That is why the APS advocates strategies to avoid adverse events.

Many undesirable events can be traced back to errors that arise as a result of complex processes involving the division of labor.

The most important tool for improving patient safety is therefore learning from mistakes together.
